

## Sarah Curtis “Sew Your Own Panties” Course at VisArts

### Special Notes:

Students should be well practiced at threading and setting up a machine, have completed at least a project or two, and ideally be comfortable with sewing curves. Students will need to purchase the Esme and/or Bella panty pattern from Evie la Luve then print and assemble the pattern before class. All fabric and findings, and sewing tools, will be provided in class. Instruction will be based on sewing panties on a regular sewing machine. If students would prefer to sew these on a serger, they are welcome to bring one to class to use, but instruction will be based on using a regular sewing machine. If you have your own machine, I highly recommend you bring it with you to class, as long as it has a zig zag stitch and can sew at 1/4” seam allowance. Please also bring your machine manual, just in case. If you have a personal sewing kit, you may want to bring that as well but it is optional.
