

Zines: Artist + Activist Mini Books with Patrick Carter

Students will need "Electric Zine Maker" downloaded on their computers. It can be accessed here: <https://alienmelon.itch.io/electric-zine-maker>

- Students will need to open either the Windows or Mac version, depending on their computer. **This software is free**, but there is the option of donating to support the artist who developed this super awesome zine making tool!
- Students will also need a printer to print out their digital zines or they will need to get them printed out somewhere like Fedex.

For handmade zines, students will need:

- Computer paper
- Variety of drawing materials
- Scraps of newspaper or magazines for collaging*
- Glue sticks*

*Optional, but another option for students who maybe don't like drawing as much.
