INTERMEDIATE/ADVANCED TO ACRYLIC PAINTING

In this painting class students will learn to advance their knowledge of acrylic painting to the next level. Furthermore they will develop their own style of painting as they learn advanced techniques. We will learn how to paint in various genres, technical applications and to paint from life as well as learn to develop a concept from a sketch to completion. Students will complete multiple paintings but finish with a final painting that is the culmination of their conceptual, compositional and technical knowledge.
