

Learn to use a sewing machine (Tote Bag) supply list:

1 ½ yards medium weight cotton woven fabric

- This can be any color or pattern,
- If you prefer you can bring in two different colored or patterned fabrics I recommend 1 yard for the liner fabric and 1¾ yards for the outer fabric

For this class it takes about 1 yard of fabric to complete the project. I recommend bringing in 1½ yards of fabric total to give yourself room for error. The tote bag will be made out of four 16"x15" rectangular pieces of fabric, two for the outside of the bag and two for the liner (you may use two different colors of fabric for the liner and exterior fabric of your bag.) Natural cotton webbing straps will be provided, although you will have the option of sewing your own straps out of two 3"x22" rectangular pieces of fabric.
