Resources (Book): *Watercolor: You Can Do It!* By Tony Couch (not required but a great resource!)

* A set of student grade tube watercolors are fine for beginners. If you decide to continue your journey in watercolor painting, you can gradually add professional artist grade watercolors as your student grade paints get used up. These days I prefer to use Holbein, Winsor & Newton, or Daniel Smith brand paints. Holbein paints are not available in our local stores but can be ordered online from outlets like Jerry's Artarama, Blick, and Amazon. Some brands, like Winsor and Newton and Daniel Smith, may be available at Michael's stores locally.
