

GRETA CORENS WATERCOLORS ART SUPPLIES LIST FOR BEGINNERS

This list is meant for beginning watercolor students.

We start with quality materials that are still feasible for the pocketbook. It is generally accepted knowledge that starting as an artist is a costly proposition.

Following is a layout of expenses based on my art supply selections.

Since we are planning our classes based on the qualities we expect from our materials, we recommend purchasing this precise list.

Most items on this list can be found at [Michaels.com](https://www.michaels.com) in-store and online.

If not, find them at Jerry's Artarama Online or Blinks.com
